

Scientific essay

- The **deadline** for handing in your scientific essay is **31.03.06** latest. This can be in electronic (pdf, rtf) or in paper form.
- Your essay should be a **review** of the topic you gave your oral presentation on. But it should be more **detailed**.
- Include the **discussion** we had after your presentation and your **personal** perspective on the topic.
- The **text** should be not longer than 14 pages long (without title sheet and index of content). Remember: the content is the important thing!
- Your essay should be good **readable**. Therefore please use font 12, 2 – 2,5 cm margin on all sides.
- You may include **images**.
- Please number all pages.
- On the **title sheet** you should give: the title of your essay, date, your name, your subject of study and your matriculation number.
- Please give the **references** in a correct form.
- **Appraisal:**
 - 70 % Content: coherent structure, literature used, logic of your arguments
 - 20 % Form: references, citation/quotation correct, scientific writing style etc.
 - 10 % Personal contribution: including discussions, we had or own views/ideas
- On an extra sheet write one page about **teamwork**: Mix what you've learned in the seminar with your own experiences (e.g. the different forms of teamwork we had in the seminar/in other seminars/in leisure time...; advantages, problems, implication for learning success, own preferences etc.). Make your own position clear.
